

Testimonials – K.O. Construction Corp.

We are extremely pleased with the end results of the remodeling of our home. Everything came out beautiful. They have gone beyond their scope of work to ensure every item has been addressed and that we as the client are satisfied. We would definitely use K.O. Construction again without hesitation. I highly recommend K.O. Construction to whom anyone that needs renovations.

Sincerely,

Mr. & Mrs. Abruzzi

Dear Frank, Sal and Daneen:

We wanted to take this opportunity to thank you and your crew for the wonderful job at our home.

When Adriana and I discovered that a new baby was arriving, we were faced with the reality of needing extra space. We contacted several contractors through various recommendations, referrals and sources and received roughly 8 quotes. We couldn't be happier having chosen KO to do the project for us.

The work was started on schedule and completed even quicker than expected. Your crew was very professional and punctual and always followed up promptly with any issues that came up.

We can't tell you how many compliments we have gotten about the job.

All in all, it was a very pleasurable experience working with all of you.

Best wishes, Seth & Adriana Goldberg 3 Parkview Drive Bronxville, NY 10708

"I have renovated 3 houses and use many contractors over the past several years and by far KO is the best contracting company I have used. Even my new neighbors have complimented me on the efficiency and professionalism of Frank and his crew. I wouldn't hesitate for a second to call them again."

As well as their management and supervision has been a pleasure to work with. I would recommend them to any commercial or residential project.

To Whom It May Concern:

I am pleased to recommend K.O. Construction as a carpentry subcontractor and in particular Sal Russo and Frank DelPonte.

K.O. Construction provided carpentry subcontracting services to Arnell for two projects, the Isamu Noguchi Museum in Long Island City and a new Fire/EMS station in Staten Island for the New York City Department of Design and Construction (DDC).

In both projects they performed all carpentry services including layout, partitions, drywall and ceilings, structural framing, rough and finish carpentry.

Thanks to Sal and Frank's efforts and their attention to the quality of their work during the course of the job, the punchlist work at the end of the project was minimal. Overall, the quality of work exceeded our expectations.

I would recommend them without hesitation and look forward to a continuing relationship with their firm.

Very truly yours,
